The ability to establish/maintain multiple tasks with set deadlines and communication within Agile and Scrum Teams. I have knowledge working with JIRA, Rest Webservices/JSON, servers and data shares for product deployment, and Source Code Management (SCM) such as Git. I have 3+ years of Customer Service Skills. I am willing to travel and have the ability to carry more than 30 lbs. Ability to obtain Secret clearance and I am a US Citizen.

Education & Certifications

Certificate - Software Engineer, Galvanize Inc 2020

Cybersecurity Certifications

- Comptia A+
- Comptia Security+
- Comptia Linux+
- Cisco CyberOp Associate
- EC Council CHF1 - Certified Ethical Hacker

Technical Skills

Key skills include C#, Java, Javascript, SQL, PostgreSQL, MongoDB, Angular, JIRA, Confluence, Atlassian, Bitbucket, Bamboo, Git, Visual Studio, Visual Studio Code, Eclipse, Git Hub, CI/CD, Microsoft Office Tools

Professional Skills

- SQL (nested queries, joins)
- Software Testing (E2E, Unit, Integration)
- Virtual Machine (VM)
- Unix (functions, parameters, writing shell scripts, loops)
- .Net Core Fundamentals and Key Tools (C#, log4net, Mockito, Maven, Visual Studio, Git)
- NUnit, TDD, UML, and Object-Oriented Principles
- Data Access (using JDBC, JPA)
- Web Development (HTML, CSS, JavaScript, XML)
- Spring Framework (Core, Boot, Data, Web MVC)
- Spring Rest/Microservices (Rest Clients, APIs, Eureka)
- Angular (TypeScript, Services, Forms, Testing)
- Agile Project Management (Agile/Scrum)
- Microsoft Windows 10
- JIRA, Confluence, Bitbucket, Bamboo, Git

Projects & Development

- Conducted a direct **SQL to NoSQL backend architecture optimization and seeding comparison utilizing such technologies as PostgreSQL, MongoDB, Faker.js, Knex.js, Mongoose, and Trello.**

- Served as a project manager on a group project that constructed an MVP full-stack model of a nutrition planner application that uses ingredients and vitamins to design healthy meals for the week.

Professional Experience

Software Development Consultant

FDM Group – Lone tree, CO

January 2022 – Feb 2023

- **I have knowledge in languages including Java, Angular, SQL. With a demonstrated understanding of Agile Software Development processes.
