Professional Summary

My name is Brian Vazquez, and I'm 18 years old, and I'm also a high school graduate from Arsenal Tech. I'm currently working roofing right now, and have little work experience, but during school I have taken classes in accounting and construction classes. I've worked in construction, mainly roofing working for a roofing company called viper roofing my dad works for them and got me a job here. He would take me and I would do some heavy lifting and cleaning the construction site helping put down Shingles like a normal roofer. I'm always willing to do new things and I know I can be a good worker. I'm applying for jobs because I want to gain more experience and need a better job for now. I would love to get more working experience if I'm ever hired to any jobs. I can translate and speak 2 languages because I speak English and Spanish.

Work Experience

Roofing

Viper Construction-Indianapolis, IN

June 2023 to Present

I put roof down with my dad and his worker and clean up any trash we leave on the floor when done with the roof and also have done roofing repairs.

Roofing

Kendrick's Construction-Indianapolis, IN

April 2019 to March 2023

Me and my dad would put shingles on the roof from start to finish starting out this job I would only pick up any trash that was on the floor at the end of the day and help carry shingles and pass it to other people. Around 2022 my dad taught me how to put shingles on the roof. Now I put shingles down myself and finish house barely being built. I would also do roof repair on any damaged shingles or fix any leaking on the roof. Once in a while I would also have to remove old shingles and replace them with new ones which is called a roof tear off.

Construction Worker
