Professional Summary

Hard-working concrete/ masonry labor with 4 years of experience in construction, skilled in masonry, scaffolding, and power tool operation. Can operate various lifts and skid steer. Proficient in masonry restoration and tuckpointing. Possesses a high school diploma, my own transportation, a drivers license and a unmatched work ethic !!

Work Experience

Masonry/concrete labor

HMC-Indianapolis, IN

March 2021 to Present

- Mixed mortar and concrete according to specified ratios for use in bricklaying and other construction tasks
- Assisted with the installation of scaffolding systems to provide access during construction projects
- Stock out scaffolding for masons
- Operated power tools such as saws, drills, and grinders to cut materials to size or shape
- Safely operated heavy machinery such as forklifts or skidders when required for material handling
- Grinded out failing mortar using angle grinder
- Tuck pointing mortar back into grinded head and bed joints
- Assisted concrete finishers in the preparation and pouring of concrete for various construction projects
- Assisted with the setup of forms or molds prior to pouring concrete
- Spread, leveled, and smoothed freshly poured concrete using hand tools or mechanical means
- Safely transported materials such as sand, gravel, cement bags around job sites using wheelbarrows or other appropriate methods
- Mixed coloring agents into the concrete mixture for decorative finishes when requested
- Applied curing compounds or sealants to protect the concrete from moisture damage
- Installed expansion joints to prevent cracks in the finished surface
